William W. Holloway Reg. No. 26,182

20
25 Dear Sir:

In response to the Office Action dated January 17, 2002 concerning the above-
identified U.S. Patent Application, please amend the Application as follows.

IN THE CLAIMS

- 30
35
1. (Amended) A translation system for translating a source assembly
language program for a source device into a translation assembly language program
for a target device, the system comprising:
a front end for identifying source elements in the source program; and
a back end for generating the translation program having translation
elements corresponding to translation of the identified source elements, the back end
